

Jackson Cattle Co.

11th Annual

BULL SALE

Tuesday, April 8, 2008

1:00 pm at the Ranch, Sedley, SK

About the Bulls ...

Our sale is one of the few that offer a very select group of Two Year Old Bulls. This pen of bulls were Bred, Fed and Designed to sell as two year olds. These are Not left over yearling or an add-on set of bulls. Our two Year old bulls are out of our Best herd sires and Best cows.

How they're Fed ...

- We do not creep feed
- After weaning and for their first winter these bulls were fed good quality hay and up to a maximum of eight pounds of screening pellets a day (our pellets come from the Weyburn Inland Terminal. These bulls are fed as yearlings to promote a more natural growth and for moderate gains.
- They went to grass in May and remained on grass until the first part of October.
- As coming Two Year olds they were again fed a practical and sensible diet of hay and pellets (much the same way you would feed your own cattle).
- These bulls have been fed and managed to promote Soundness, Fertility and Longevity.
- We ensure that you can buy with confidence as these two year old bulls will cover more cows over more ground and for more years.
-

Buy now and pay in the Fall ...

If you would like a little extra time in paying for your bull(s), maybe we can help. All you have to do is follow these steps.

- Call ahead and make arrangements with Levi.
- Leave a post dated cheque with us at sale time.
- Take your bull(s) home with you on sale day or pick them up within one week of the sale.

Terms and Conditions ...

Sight Unseen Purchase Plan

If you would like to buy a bull and are unable to attend the sale, contact any of the consignors and we will try and select a bull or heifer to meet your needs and in your price range. If you are not satisfied with any of the cattle purchased for you this way, you are under no obligation to accept them.

Trucking

For those buyers that are unable to take their purchased home themselves, we can arrange delivery at a minimal cost.

Guarantee

Jackson Cattle Co. guarantees to sell you a bull that is structurally sound. Should any of these bulls fail to be a satisfactory breeder, unable to physically service a cow or heifer, a replacement will be provided, or an adjustment will be made to reflect the value of the bull in question, or credit will be given towards the purchase of another bull. We, however, will not provide replacement or adjustment for physical injury or mismanagement. Bearing this in mind, we stress the **importance of having insurance on your bull**. Should you have a problem with your bull, call us right away. We will work with you to make sure you are satisfied with your bull.

Terms

Unless previously arranged with an individual consignor, terms of this sale are cash or cheque made payable in Canadian funds immediately after the sale. The right of ownership shall not pass from seller to buyer until settlement is made. As soon as the animal is sold it becomes the responsibility of the purchaser.

Announcements

All announcements made from the auction block will take precedence over the printed matter in this catalogue. Buyers are therefore cautioned to pay close attention to any such announcements.

Certificate of Registry

A certificate of registry duly transferred will be furnished to the buyer by the breed for each registered animal after settlement has been made.

Accidents

Although every precaution will be taken to protect the comfort and safety of buyers, Jackson Cattle Co. Does not assume any responsibility in this matter and disclaims any liability, legal or otherwise for any incidents occurring on or about the premises.

Liabilities

All persons attend the sale at their own risk and sellers assume no liability, legal or otherwise for any accidents occurring on or about the premises.

Please contact Levi.

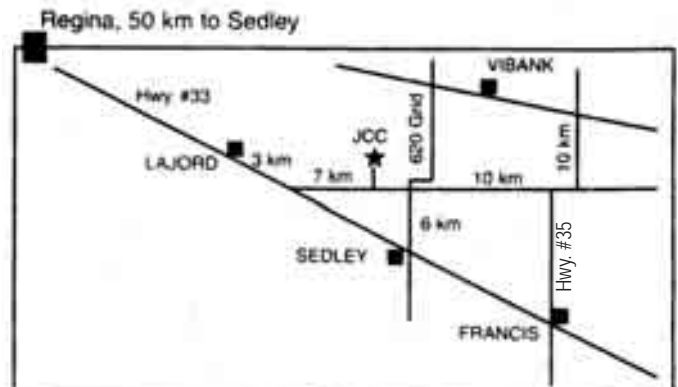

Welcome everyone to our 11th Annual Bull Sale. As often and as regularly as things change - one thing always stays the same - we're still busy! Dakota will graduate in June this year and is busy mapping out the next chapter in her life. Chance is busy with all his livestock, roping and High School Rodeo. Carmen is still busy with her gardening, barrel racing and raising her young horses. And me - I'm still busy trying to put up enough feed and keep enough cows to feed it to. But you know, busy is good! It sure beats the hell out of wondering what to do with yourself.

We've also been busy trying to make sure we have a good set of 2 year old bulls once again for you to have a look at. We have bulls from our proven herd sires like Mambo, Freedom, Integrity and Mystic, plus 3 new sires for some new blood in Epic, Joe and Outback. There's a great selection of light birth weight bulls for heifers, a solid group in the middle with moderate birth weights and above average performance for heifers and cows, and a powerful set of high performance bulls for the cow herd.

It has become "fashionable" for lots of bull sales now to offer "some" 2 year old bulls. But our sale is one of very few that have bred, calved, fed and managed ALL of our bulls to sell as 2 year olds.

So give us a call ahead, stop in before, or show up sale day!

Respectfully,
Levi & Carmen

The bull that has done just about everything right here at JCC. His bulls are powerful and impressive. His daughters are absolutely awesome, with volume and beautiful udders. When we use Mambo on Bomber daughters - nothing but good things happen. National Champion, Reserve Grand Champion Agribition and a number of Division Champions and high sellers.

Integrity has been our calving ease specialist for four years now. On top of that, he makes some awfully good cattle. At Agribition 2004, an Integrity out of a Mambo was high selling heifer calf at \$7,300 and was Intermediate Calf Champion. Another Integrity-Mambo combination was high selling Heifer Calf at Agribition 2005 at \$8,000. Integrity is now owned by Blairs Ag.

Joe was the second high selling bull at Sibbald's in 2005. He combines frame, depth and performance in a total outcross pedigree. Check out his excellent EPDs.

Thank you to Al and Jeff Tosczak of Great Plains Ford in Weyburn for purchasing Dakota's 4H steer this past year. The Tosczak's dedication to 4H members is unparalleled. Al purchased 32 4H steers at Weyburn in 2007.

Many thanks to the management and staff of the Affinity Credit Union - Sedley Branch for once again purchasing Chance's 4H steer.

Dark red and solid numbers. Excellent cow family.

RED JCC ACADIAN 28S

Why Buy Our Two Year Old Bulls?

For 4 years now, our program has been geared towards calving, feeding and selling our bulls as two year olds. These bulls are not "extras" or "add ons" or yearling bulls that were fed to sell as yearlings and "didn't make the cut". You won't find any swollen hocks or full briskets here. Just a good, honest set of bulls that have been fed and managed the way you would like them... **Ready To Go To Work.**

Full brother was our high seller two years ago. Sound and quiet - great for the cow herd.

RED JCC MULAKIE 71S

RED JSTN RAMBO 76S

It's Business as Usual...

Many of you are aware that in the fall of '06 we dispersed our Red Angus herd. We have formed an alliance with Blair.Ag, Kevin & Darren Blair, and starting in the fall of '08 will be managing their bulls and will host their first annual Bull Sale on April 9, 2009. They are assembling what will arguably be one of the finest sets of Red Angus females to be found anywhere. They share our philosophy about raising bulls and are gearing their program towards selling 2 year old bulls. We have a small set of Red Angus cows as partnership cattle, so will be consigning a few bulls to this sale as well. We are eternally grateful to all our past customers and we hope to see you all on April 8.

It's business as usual at JCC, though. Same good set of bulls. Same guarantees. Same customer service.

A Large Selection of "Heifer" Bulls!

If you have heifers to breed this year, then we have an excellent set of bulls for you. These bulls are light birth weight with good performance to weaning. They are moderate framed, sound footed with good muscle expression. A yearling bull will handle 15 to 20 heifers or cows but these 2 year old bulls will comfortably handle 25 to 40 females.

Lot 79S

RED CCCJ 117S
A great summer born Integrity son from a beautiful uddered Freedom daughter. This will be a great bull to breed a bunch of heifers to.

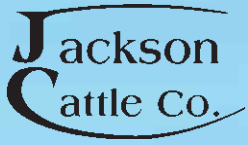

We are very pleased to work with Levi, Carmen, Dakota and Chance Jackson in our pursuit of genetic excellence in the Red Angus breed. At the Jackson Cattle Company dispersal, we purchased a core group of 38 females and one herd sire – Integrity 17M to begin our nucleus herd. Since that time we have spent considerable time and resources trying to find the best maternal and sire genetics to add to the core group of females we purchased from the Jackson's. We are very pleased that in the last year we have been able to acquire some exciting genetics with the addition of Red Shoderee Destiny 114P to our sire line up and numerous other very elite females. More recently, we are excited about our recent purchase of four females from Hook 'n Ladder Ranch from Washington that were originally owned, bred and managed by Levi and Carmen – Red JCC Lass 41N being one of these females.

As our herd grows and expands, we believe it is imperative that we partner with people who have demonstrated leadership and excellence in the seedstock business. That is why we are excited that Levi, Carmen, Dakota and Chance are a part of our team. In addition to managing the females purchased from Hook 'n Ladder Ranch, Levi and Carmen also manage the core group of our embryo program. Most recently, we are pleased to announce that April 9th, 2009 will be the first bull sale for Blairs.Ag Cattle Company and guest consignors which will be held at the Jackson Cattle Company sale facility. The bulls will be developed at Jackson Cattle Company from weaning through sale day. Continuing in the tradition of Levi and Carmen's previous bull sales, we will be offering a group of primarily two year old bulls for your consideration. These bulls will be selected for this sale on the basis of phenotypic performance, overall conformation, disposition, and genetic merit through the use of Igenity profiling of their DNA. The details of their Igenity profiles including their scores for tenderness, fat thickness, yield grade, ribeye, carcass weight, marbling, and percent choice will all be made available to you with detailed explanations of what the scores mean.

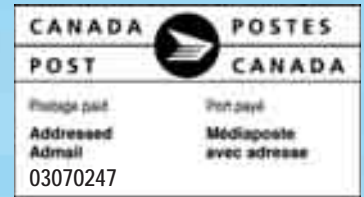

We would invite you to preview these bulls anytime this summer or fall and have a look at their mothers working in the pasture. These bulls represent a great opportunity to add some genetics to your herd that we know will have a very positive impact, whether it be raising purebred cattle or in a commercial herd to produce top quality beef for our ever discriminating consumer.

Best Regards,
